Importance: High

Enforcement Confidential- Deliberative- Draft

The DuPont Team would like management review of this Draft UAO Emergency order to DuPont, at least by COB today or early Thursday so it can be elevated as request by HQ in the email below. Also if further information about previous calls can be shared with R5 this would facilitate their management review as well. It is our understanding that Shawn still has a call scheduled on Friday, so we would hope to have HQ review prior to that and following Regional Review. Thank you. Sorry for the abbreviated review, but this will not be the last opportunity, just an initial read to make sure there aren't any significant points of law we have missed.

Subject: Draft for management review
Importance: High

Hi team- attached is version 7 of the UAO for management review. I understand there may have been a discussion among Cynthia Giles, Joel Beauvais, and Shawn Garvin last Friday, and it would be extremely helpful to receive confirmation of whether that meeting took place or not and what the result was so that we in R5 can pass that information along to our managers.

Andy, Lynne and I agree that we should be requesting review of this working draft by our managers to determine if management is comfortable that the team has made its prima facie case. Managers will of course receive another opportunity to conduct a more thorough review of an UAO if we actually plan to issue one at some point.

Apparently, Shawn has a call scheduled with Chemours for this Friday, so presumably, management review should be completed by Thursday morning to provide time for any internal discussions needed prior to the R3/Chemours call. Thanks-Jacque
